# Budjon Boarding & St. Jacobs ABC to Host 2014 WHA State Picnic

Budjon Boarding and St. Jacobs ABC are excited to host the 2014 Wisconsin Holstein Association State Picnic at the farm on Sunday, July 27. This dynamic duo will provide a unique opportunity for Holstein enthusiasts to see a complete overhaul and facelift of the well-known Budjon Farms, in addition to a daughter display and the opportunity to hear more from an elite, type-focused AI organization in St. Jacobs ABC.

*John, Tom & Kelli Cull*

Budjon Farms has been an integral part of the Wisconsin dairy landscape for many years. John and Mary Cull made the move to Lomira and their current location in the winter of 1998 from Pewaukee. Their son Tom married Kelli in 2000, the same year he came home to farm with his parents. In 2003, Kelli came home to farm full-time, and she and Tom entered into a 50/50 partnership with John and Mary for both the facilities and cattle.

While Budjon has always been home to a small milking herd, the boarding part of the business has truly flourished over the course of ten years. The Culls admit that the boarding part of their operation started somewhat unintentionally, when the partnership with Joel Kietzman started with the purchase of Elegance and formation of Elegance Futures. The Culls also owned additional animals with Mark Rueth and Joel Kietzman that were boarded at the farm. Elegance Futures remains a separate entity between the Culls and Kietzmans that employs the farm to house partnership cattle. Through the years the word and proof of elite care at Budjon has spread, and the business has grown and evolved to house both elite show cattle and more recently, young calves.

Many animals have been housed for various partners, but the official start of the boarding business began when Jeff Butler and his partners were looking for a place to go with their animals between leaving a location and building the next. Jeff had made plans to build a barn in Chebanse, and sent 10-15 head to live at Budjon for a year and a half while waiting for completion of his facilities. The Culls had the opportunity to get to know Jeff through working with Winterbay Goldwyn Lotto, who was owned with Peter Vail, a partner of Budjon's through other females. That year, Lotto was Grand at the Royal and truly opened people's eyes to the special care provided by the Culls. Idee Goldwyn

Lynley, owned by Butlerview and Gen-Com was All-American Senior Three-Year-Old and Intermediate Champion at World Dairy Expo. Deboer Gldwn Snow Velvet-ET was All-American and All-Canadian Junior Three-Year-Old, and also owned by Butlerview. The results of Budjon care for this trio of females was only further proof of the benefits of breeders investing in the Budjon Boarding business.

Lotto was only the beginning of special females coming to live at Budjon. Tom and Kelli were fortunate to work with Mario Comtois of Gen-Com, a Lynley partner who approached them to work with his entire show string from the end of summer through World Dairy Expo in Madison. The Culls helped Gen-Com for two years, resulting in Premier Exhibitor banners at the three major fall shows both years, along with having Grand Champion at both the Royal and World Dairy Expo. Mario's confidence in Budjon and the care provided has set the bar high for getting cows ready for the colored shavings.

In the last three years, Budjon has prepared 36 All-American Nominations (Black & White Holsteins). This impressive list includes Dubeau Dundee Hezbollah, Charwill Attic Marcy, Scientific Gold Dana Rae, Earhardt Gold Beauty, Robrook Goldwyn Cameron, RF Goldwyn Hailey, Idee Goldwyn Lynley, Siemers Goldwyn Goldie, and Budjon-JK Emilys Edair.

In addition to the high profile show cow aspect of the business, the calf business is where Budjon is able to utilize another aspect of their facilities. The Culls work with various recipient organizations to acquire young calves that are produced for joint clients. The calves arrive at Budjon at about one month of age. Those calves range from everything from high type potential show calves to high genomic females to bulls destined for stud. Budjon has 100 calf hutches, ten super hutches, and a weaning barn that brings their calf total on any given day at just shy of 200 head under four months of age.

Even though there is a large emphasis on the calf operation, the milk barn is still filled with 65 cows. Budjon Farms has an inventory of about 400 head. One third of these are owned by Budjon or in partnership. The remaining two-thirds are owned by the 60-plus clients that utilize the Budjon Boarding business. In the year 2013, 980 head arrived and 880 exited the farm. This results in trucks coming and going and organizing transportation and health papers on a weekly basis.

## Teaming up with St. Jacobs ABC

One business and boarding partnership that has been very successful for the Culls is that formed with Tim Abbott and St. Jacobs ABC, co-host of this year's WHA State Picnic. Tom and Kelli were able to get to

*Tim, Sharyn, Chelsea and Caitlyn Abbott*

know Tim as a friend through ABS just about the time he was looking to get his feet wet in the female business. Tim was looking to invest in high profile daughters from ABS/STJ sires, and after Dubeau Dundee Hezbollah was Intermediate Champion at WDE, the Budjon/STJ connection was born. STJ continues to have a strong business relationship and friendship with Budjon through IVF work and prominent females still cared for by the Culls.

St. Jacobs Animal Breeding Corp (STJ) is focused on the development of elite dairy cattle genetics and developing dairy cattle with outstanding type traits for function and competition. STJ believes that breeding cattle with outstanding type is an art, and STJ has the desire to fulfill the need for high type genetics for breeders that are passionate about their cattle and enjoy seeing a great herd of cattle when they go to the barn each morning. STJ is owned by Tim and Sharyn Abbott of Franklin, Vermont, and remains a long time partner of ABS Global, Inc., in DeForest – the exclusive distributor for STJ products worldwide.

STJ continues to invest in top-end show cows to provide premier type and breeder genetics for breeders worldwide. Owner Tim Abbott plans to keep the best cows boarded

at Budjon, as Tim says one of the cheapest expenses is the level of care at Budjon that cannot be reproduced. The Cull's knowledge, facilities and care, in addition to their location in Wisconsin, provides an ideal situation for STJ females.

Currently, STJ has one female housed at Budjon that is also owned in partnership with the Culls. Robrook Goldwyn Cameron, EX-94, has been dominating the spring show ring as a five-year-old, and calls Budjon home. The popular Butz-Butler Gold Barbara, EX-92, was purchased with Kueffner, River Valley, and Iager last year, and was Intermediate Champion at WDE 2013 and Reserve Grand at the NY Spring National this year. Barbara and Cameron's daughters will eventually be living at Budjon. Cameron has a son by Aftershock and one by Gold Chip that will enter the STJ sire program in the fall. Barbara is a sister to STJ's popular sire, Buxton, and continues to make bulls for the STJ program, including popular young sire Brazzle.

Visitors to this year's picnic can expect a fantastic display of STJ daughters from all programs, including the Red & White, Judge's Choice, and Breeder's Choice line-ups. Daughters that will be highlighted include Aftershock, Destrly \*RC and Buxton, in addition to Maxwell-Red and Perseus \*RC. The Abbotts are also hoping to have daughters by Heztry \*RC, Hezton, Declan, Attorney and Freeze.

Additional females that will be on display include high-profile, Budjon-bred beauties Linjet Eileen, EX-95, and Redmarker Desire, EX-96. Also at the farm will be genomic giant Seagull-Bay Miss America, 2014 Spring Show Champion Robrook Goldwyn Cameron, Reserve Champion of the Mid-East Spring National, Rocky Mountain Sanchez Finesse,

and more! Visitors will not be disappointed in the quality and depth of females on display at every age.

Budjon and St. Jacobs ABC are ecstatic to open the doors to visitors the weekend of July 27. A tag sale will kick off the festivities on Thursday, July 24, at 12:00 noon, and everything will be priced at the farm. On Friday, July 25, a BBQ oyster feed will start at 12:00 noon for the tag sale and STJ daughter viewing. On Sunday, the tag sale will still be running in addition to the STJ daughter viewing, and the Wisconsin Holstein Association will have a brief program and annual picnic festivities.

## Reality Check List

### Hurtgen-Vue Reality-Red VG-88

aAa: 213645 • DMS: 126,246  
Sept Storm x Hanoverhill Renaissance

#### ✓ Breed Leader

Reality-Red is the **No. 1 Red TPI Sire** with 99% reliability. He has ranked in the top 4 TPI Red & White sires for **every sire summary since January 2009**.

#### ✓ Staying Power

His TPI is +1984 and has increased over 300 points since his first proof in 2008. What's most impressive is that the increase is credited **exclusively** to his 2,220 producing daughters.

#### ✓ Pedigree with longevity

His dam, Hurtgen-Vue HHR Vanessa-Red 3E-93 DOM, calved consistently and in her 6th lactation at 7y11m made her highest record of 37,230M 1394F 1179P. She was twice nominated "Red Impact Cow of the Year" by *Holstein International*. Her dam was one of 4 Very Good sisters, all over 100,000 LT. Next dam was VG-86 EX-MS DOM Cavalier with 170,000 LT.

#### ✓ Outcross Genetics

And in a dairy genetics world that has focused narrowly on a few bloodlines, the breed is in need of outcross genetics. Reality-Red has been the **No.1 Expected Future Inbreeding sire for six consecutive years spanning 17 sire summaries!**

#### ✓ Components

Make your milk more valuable. Daughters average over 25,000 pounds of milk with off-the-chart components. **+2.29%F +.07%P**

#### ✓ National & Regional Show Champions

Int. & Res. Grand Champion – All-American R&W Show 2013  
Intermediate Champion – Mideast Fall R&W Show 2013  
Intermediate Champion – Int'l Spring R&W Show 2014  
Res. Intermediate Champion – Midwest Spring R&W Show 2014  
  
Junior Champion – International Spring R&W Show 2014  
Reserve Junior Champion – Midwest Spring R&W Show 2014  
Reserve Junior Champion – Quebec Spring R&W Show 2014  
  
Grand Champion - Int'l Spring R&W Jr. Show 2014  
Res. Intermediate Champion - International R&W Jr. Show 2012  
Res. Junior Champion - International R&W Jr Show 2012

#### ✓ All-American and All-Canadian Red & Whites

Reality-Red sired six Junior All-American R&W nominations (three in milking form) with two All-American winners in 2013. He also had 5 All-American nominated individuals plus two groups. In 2012, 9 Junior All-American R&W nominations and 4 All-American R&W nominations were Realities. Reality-Red was also the second leading sire of 2011 All-Canadian Red & Whites.

#### ✓ Impressive Type

Reality-Red has consistently transmitted impressive type traits:  
**+2.38T +1.79 UDC +2.71 FLC**  
He has dozens of Excellent daughters scattered in 11 states from California to New York. Canadian daughters are 79% GP or better.

#### ✓ Health Traits

Calving ease, attractive daughter pregnancy rate and somatic cell

#### ✓ Breeder confidence

There is great personal satisfaction as well as a humbling honor when breeders have faith in your breeding program. Eleven of Holstein Association's Distinguished Young Breeders and Elite Breeders have used Reality-Red. This list includes Elite Breeder, Bob Miller, with Mil-R-Mor Reality Desi EX-90 EX(92)MS and Young Breeder winners, Jonathan and Alicia Lamb, who have bred three Excellent Reality daughters.

## NORRBOM FARMS

*"Striving for that fine line of genetic excellence"*

### *When your world comes crashing down...*

Our family would like to express our heart warm thanks to our community and farm friends who were able to help us at the time of our partial freestall collapse on February 20th.

While our losses were significant we feel fortunate that no human life was lost. The goal is to be rebuilt and fully operational by late summer.

A special thanks to Clabough and Secura Insurance who have made the step by step rebuilding process quick and smooth.

# MARATHON COUNTY HOLSTEIN BREEDERS

*Introducing...*

## MILKYHILL CATTLE SALES

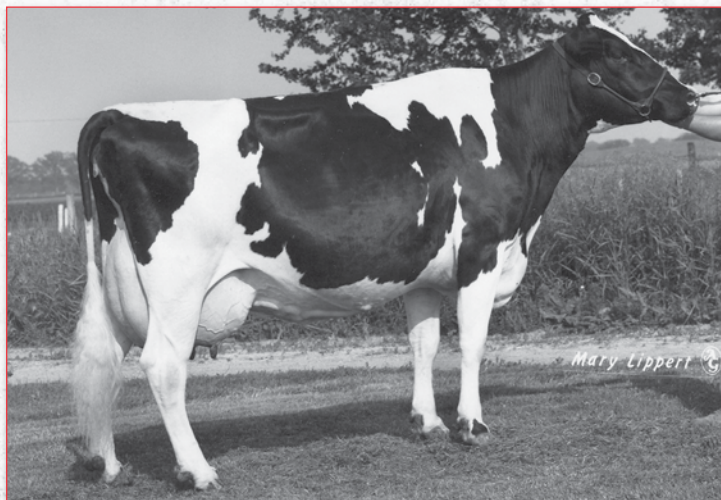

In 1963, as a freshman in High School I received my first project calf sired by Hickory Juryman. We later bought two calves by Cremel and Standard - both Tri-State bulls. In the late 1960s we bought four bred heifers: three Headmasters and one Lad. They all went VG. All these animals were successful in my breeding program, but the Lad was the key to my success. She was 17 when she died and is buried on the farm. She had a son and daughter by Jewel. The daughter, Milkyhill Crystal Jewel Angel was EX-92 and had 10 EX daughters. The son, EX-92 went to Tri-State with an open-end contract.

In the late 1970s and 1980s I sold quite a few high priced cows. I knew the index animals were overshadowing the good type cows. I sold my herd four times in eleven years - two by public sales and two by private treaty. I also had quite a few bulls go to Germany and other Countries.

The first time I sold my cows I had 12 Ex, 10 VG and 6 GP out of 28 cows. This herd was bought by Phil Majerus, Fond du lac, WI. Over the years we bred and owned over 50 Excellent bulls and cows.

*Ed & Jill Mielke*

*Milkyhill Crystal Jewel Angel EX-92 GMD DOM*

I farmed with my dad, Edward Mielke, Sr. until he retired in 1980. I then bought the farm I live on now and updated the barn and the house. I was married to Jill in 1990 - the best decision I ever made. We have three children, Jason (Angie), Jamie, and Jeremy (Pam) and seven grandchildren - Shynia - 18, Cody - 17, Cheyenne - 14, Dakota - 12, Caylee - 11, Carlie - 6 and Kyson - 1. We also have been involved with the Foreign Exchange Program (AFS) for the past year and are hosting Mathis - 16, from Germany.

We bought Village Spirits, LLC, which we owned for 20 years. We sold that in December, 2012. We also own The Korner Kitchen, LLC for the last six years.

In 1998 we started Milkyhill Cattle Sales, LLC. I now work with buying & selling cattle - both public sales and private treaty. I also help with Barron County Holstein Breeders, Vernon County Holstein Breeders and Marathon County Holstein Breeders with their consignment sales.

I also own a 15 passenger van. In my spare time I haul people to Brewer games, etc. I also haul Amish long distance trips. I have gone as far as New York and Canada.

We are thinking about selling our farm, but still working with cattle. We now rent out our barn.

I am proud to be a Marathon County member and thank the association for allowing us to have this ad.

# All Roads Leads to Illinois

The Illinois Holstein Association is very excited to welcome fellow Holstein enthusiasts to the 2015 National Holstein Convention, June 23-26, 2015, in St. Charles, Ill. Co-Chairmen, Ron Schaufelberger and Dale Drendel, have gathered a great group of volunteers throughout the state to help plan an exciting convention! Make sure to stay-up-to-date on all convention related information by visiting the official convention website at: [www.2015holsteinconvention.com](http://www.2015holsteinconvention.com)

We already have a busy schedule lined up for next year and will continue to add more information to the website as it becomes available. As you start to plan your trip, you'll soon learn that "All Roads Lead to Illinois."

## Accommodations

The 2015 National Holstein Convention will be held June 23-26, at Pheasant Run Resort in St. Charles, Ill. The resort is located on the original Silver Glenn Farm, home to the first Holstein classification in 1929. The resort will accommodate all guests and for your convenience all junior activities and adults programs will be held on-site.

In addition to the spacious event space,

there are six restaurants including the flagship, Harvest. A premier seafood and steakhouse, the interior of Harvest boasts original barnwood from the Silver Glenn dairy barns and their booth seating utilizes the old dairy stalls. Right around the corner from Harvest is Zanies Comedy Club, housed in the original silo of Silver Glenn Farm.

The resort is also home to two award winning golf courses, of which one will be used during the official convention Golf Tournament. More information will be available on the website later this fall.

Once inside, you will be able to enjoy any of the three pools (one of which is an indoor/outdoor pool), shopping and lounge areas. Hotel reservations may be made starting later

this fall. Check out the "Accommodations" tab on the website for reservation information.

## Pre and Post Convention Tours

Plan your own pre and post convention tours with our convenient, interactive map found on the website under "Breeder Tour." Because of the vast majorities of major highways that you can travel throughout the state, we will identify farms along the way that will be welcoming visitors before and after convention. No matter how you travel, or where you are coming from, there will be plenty of opportunities to visit other great Illinois herds along your trip.

You will be responsible for contacting the farms before you travel to arrange your visit, but we will help facilitate it as much as possible. Farms will be added as they become available, so make sure to visit [2015holsteinconvention.com](http://2015holsteinconvention.com) frequently for all the latest tours available!

## Host Day Tours

We already have an exciting line-up of Host Day tours planned for Wednesday, June 24. Two tours will depart from Pheasant Run in the morning. All tours will begin at GEA Farm Technologies Headquarters in Naperville, Ill. GEA Farm Technologies has a great history in the milking equipment industry that dates back to 1906. Babson Bros. [SURGE] and the Westfalia group, which both pioneered machine milking around the world throughout the past century, are the foundation of the Milking and Cooling division at GEA Farm Technologies today. The Naperville, Ill., location is the North American headquarters, consisting of a storage and shipping warehouse, training facility, history museum, and administrative office space.

From GEA, tours will split. One tour will head to Wauconda, Ill., home of Golden Oaks Farm and Midwest Organics. Owned by the Crown Family and represented by Bill Crown, Golden Oaks is known for breeding two of the breed's best Roxy descendants, Champ Rae and Perk Rae. Managed by herdsman Ethan

Heinzmann and Senior Genetics Consultant Gary Janssen, the Golden Oaks herd has a 27,500 3.9%<sup>f</sup> 3.2%<sup>p</sup> RHA on 3x milking for 730 cows. Beyond the Champ Rae and Perk Rae families, they also have descendants from the Apple, Frosty, Matt Missy, Shottle Lucy and Champion Bianca families, as well

as many other exciting families!

You will also tour Midwest Organics, also owned by the Crown Family. Midwest Organics, [www.midwestorganics.com](http://www.midwestorganics.com), is a composting business servicing the suburbs of Chicago, that incorporates some farm waste, yard waste and food scraps. You will learn about a different niche market opportunity in the dairy industry!

The second option for tours include a trip to Hampshire, Ill. Luck-E Holsteins is owned and operated by Dennis and Beth Engel with their sons, Matt and Joe. Since 1968, Luck-E has bred 284 Excellent cows including three Excellent-95 and 18 Excellent-94. They have put several bulls into stud from some of their

most popular families. Well known families include Advent Asia and Advent Atlanta, and Klassy/Kiki families. Of the current 2+ lactation cows, they average EX-90, and first lactation cows average VG-85. Their RHA is 24,050m 4.1%<sup>f</sup> and 3.4%<sup>p</sup>.

From there, you will travel just a 1/2 mile

# 2015 National Holstein Convention

down the road to Lindale Holsteins and Team Holsteins. Lindale Holsteins is operated by Dale and Linda Drendel with their son, Jeff, and daughter, Julie Ashton. Team Holsteins is a partnership between Jeff and fellow farm employee Kevin Kriegel. In 2009, Lindale Holsteins had their first EX-95 cow, Lindale Eland Frisky. She was the 2009 3X National Bred & Owned Grand Champion and they currently are working with multiple

granddaughters from her. Team Holsteins recently had their first EX-95 cow as well, Team Durham Morgan, Grand Champion of the 2012 Mid-East Fall National Holstein Show. Their 150 cows average nearly a 27,000 RHA.

## Junior Host Day Tours

Juniors will have the opportunity to attend these tours, or participate in the Junior Host Day activities. Again, there will be two options. One group will head about an hour west to Magic Waters Waterpark in Rockford, Ill. Home to seven slides, a Tsunami Bay and Tiki Island, this waterpark truly has something for all ages. Make sure to visit [2015holsteinconvention.com](http://2015holsteinconvention.com) to experience the slides before you come with interactive videos!

Another group will depart for downtown Chicago and take in the lakefront Museum Campus by exploring Shedd Aquarium and the Field Museum. Take in a memorable

aquatic show at the Shedd or explore your science side and learn about the story of life on Earth the Field Museum. Either way, your trip to downtown Chicago will be both educational and entertaining!

## 2015 National Holstein Convention Sale

To conclude Host Day, all junior and senior tours will end at the Kane County Fairgrounds, just 10 minutes from Pheasant Run for the 2015 National Holstein Convention Sale!

Sale Chairmen, Gary Janssen and Brian Olbrich, will be working with an exceptional crew to present some of the best cattle from around the world for your offering. Burton Consulting will managed the sale.

During the sale, there will be an Ag Olympics event and dance on-site for juniors who wish to participate.

Transportation will travel to Pheasant Run throughout the evening so you can stay as little or as long as you wish.

Consignments will be featured on our website well in advance of the sale, so make sure to visit often!

## Family Night

Thursday night will be one of the premier events of the 2015 National Holstein Convention when all guests attend a show

at Medieval Times in Schaumburg, Ill. Take a step back in time to the days of chivalry and princesses and be ready to cheer on your

knight in an epic jousting battle, marvel in the awe-inspiring horsemanship and falconry and enjoy a four-course meal fit for royalty! You will be treated to a once-in-a-lifetime show that will surely have you talking about it for days after.

## Non-Delegate Tour

For those not participating in the senior programs, a bus will depart from Pheasant Run Friday morning for downtown Chicago. The Chicago Lake and River Tour offers breathtaking views of the magnificent skyline and up-close perspective from the Chicago River. This tour will entertain everyone,

particularly those with a desire to experience the beauty of Chicago architecture. The day will conclude with lunch, shopping and exploration on historic Navy Pier on Lake Michigan.

## Special Appearance by Orion Samuelson

We are extremely excited to welcome back Orion Samuelson as guest speaker of the Senior Banquet Friday evening. Orion is a world-renowned farm broadcaster who grew up on a dairy farm in Wisconsin. He has spent his life bringing news to farmers across the Midwest and is sure to share some special stories during the banquet. Orion also was present at the 1975 National Holstein Convention, which was held in downtown Chicago!

## Stay Informed

The Illinois Holstein Association is very excited to welcome all guests from coast to coast to the Land of Lincoln for the 2015 National Convention. Make sure to stay up-to-date on all convention activities and news by visiting [www.2015holsteinconvention.com](http://www.2015holsteinconvention.com) and we look forward to welcoming you next June!

# From The Land Of Infinite Variety

After a long winter, one looks forward to spring, but this year, we will go right into summer. Just had a four day stretch of frost every morning and record lows. It is good that the crops aren't very high or even out of the ground. Moisture finally coming to some and other areas continually getting too much in this state. As it says earlier... the land of infinite variety!

We want to wish our Iowa Holstein neighbors a very successful National Convention. Knowing the conventions that you have hosted in the past, this one will be sure to please also. 2014 and Dubuque is the place for wonderful Holstein fellowship!

By the time this is in your hands for reading, South Dakota Holstein will be very busy. On June 6, we will host the

“Pride of the Plains “ Sale in Brookings. The sale force has been diligently working to find consignments that will fit all your needs. From milking females and bred heifers ready to work for you, the type for the show ring, deep pedigreed heifers, & genomic heifers with the numbers. Whatever you are looking for, the right one will be at the “Pride of the Plains”.

The Central Plains Show will be the following day. The show has been moved up a month so we can have the show & sale on consecutive days. The show entries will be brought into the ring before Judge Chad Ryan. I want to wish all those entering good luck!

All this is being tied together with “Dairy Fest”. A new Dairy Festival being organized by the Swiftel Center to have a venue for the public to learn

about everyday life on a dairy farm. Activities include bus tours to a large dairy, dairy obstacle course for the youth, Cow to Cup 5k run, a dairy putting green, educational forums for adults and youth, free dairy products, a free lunch, being able to enjoy our show, a “Got Milk” gala for the sponsors, and the “Thank A Farmer” program. Plus, the SDSU Dairy Club will be hosting their Dairy Camp and a 4-H regional judging school will be held. The Swiftel Center & Brookings will be the center for dairy activities in South Dakota for two days.

Wishing everyone a very safe and memorable summer. See you in Brookings and Dubuque in June.
